National Grange Consecrated To Task Of Driving World Outlaw From Place

St. Louis, Nov. 14.—Oliver Wilson, of Peoria, master of the National Grange, patrons of Husbandry, in an address before the annual meeting of the National Grange in this city today declared that the present world war "represents the most frightful price humanity has ever paid for an ideal. But only by paying such a price shall a real and lasting world's peace be attained and the opportunities of freedom and liberty be guaranteed to every people."

"The history of the grange, from its very inception is a continuous and unbroken record of devotion to the principles of peace, to the championship of justice, fairness and fraternity, and a repeated avowal of its faith in arbitration and a means of settling all differences between individuals and nations."

He then added that the time was propitious for a statement of purpose today and said: "It is our opinion the national grange could here and now declare to the world its unqualified consecration to the great world task now facing civilization—of driving forever from existence the greatest world outlaw that history has ever recorded, and empire that has prostituted itself in the worship of brute force, that has hurled to the winds all the ideals of honor, morality and decency, and that has stooped to acts of murderous lusts that constitute, until destroyed, a menace to every principal of civilization and even of Christianity itself."

CHIMNEY FIRE AT LOWERY HOME

The fire department was summoned to the Frank Lowery home, 318 Jackson avenue, at 8 o'clock this morning by the burning out of a chimney. It was feared the sparks would ignite the roof and, accordingly, the firemen were summoned.

LEE COUNTY BOYS AT CAMP GRANT TRY OUT ON THE RIFLE RANGE

Boys From This County Had an Interesting Day at Practice.

GOOD SHARPSHOOTERS

Lee county honor men had their first experience at rifle range shooting on the range at Camp Grant yesterday. Early in the morning the 32nd infantry regiment, which includes Company M from this county, marched to the range for practice. Headquarters company, to which the East Siders belong, went along, but the machine gun company of the 32nd, to which the West Side men belong, did not go, as machine gun practice has not yet been started.

Boys Were Up Early. The men of the 32nd infantry arose at 5 o'clock. They were on the march to the range an hour later. Target practice began at 8 o'clock and was continued throughout the day, and the noon-day mess was cooked in the field kitchens. Tomorrow the 343rd infantry will practice at the range; on the following day the 34th infantry will shoot.

Range practice is now being had at a distance of 200 yards. All of the men who will go to the range during the next few days will practice shooting at that distance. When they become more accustomed to shooting they will practice at three hundred, and finally, at five hundred yards. The rifles used have a flat projectile power of five hundred yards.

The men of the 342nd infantry were much interested in the rifle

WAGE DEMANDS WORSE THAN 8-HOUR CRISIS

BROTHERHOOD CHIEFS TO SEE WILSON—RAIL MANAGERS PROTEST.

(BULLETIN.)

(Associated Press Leased Wire) Washington, Nov. 14.—It was disclosed here today that President Wilson does not intend to permit the country's transportation systems to be tied up by a strike at this critical time in the nation's history, even if it becomes necessary for the government to operate the roads.

Washington, Nov. 14.—Arrangements have been made for the chiefs of the four railway brotherhoods to see President Wilson on Nov. 26th in connection with the workers' proposals for wage increases of conductors and brakemen on all the railroads of the country. The new demands, the railway managers say, will amount to \$109,000,000 a year and are more serious than the eight-hour day demand of a year ago.

Comparing the German nation to an insane man running amuck in a peaceful community he asserted that it was the sense of self-preservation that demanded means to check the destructive course and to restore to safety a threatened community.

Continuing, he said: "I, therefore, believe that this national grange in annual session assembled, as the most representative body of tillers of the soil in the country, should put itself squarely and unreservedly on record in support of the American nation, of the American president, of the American soldier and of a speedy and thorough finish of the job upon which the United States has entered."

"To this end let us pledge to that nation, to our president and to those soldiers the utmost limit of our energies backed by our acres and their productiveness; by our labor and its skill; by all our resources, that those soldiers may be well clothed and fed, and that the awful burden of sacrifice they have been called upon to make may be lightened as far as possible."

National prohibition has always been favored by the grange, he said, and added "Food dictators are asking that we observe a wheatless and a meatless day each week; why do they not include a beerless day? The grange may be active in the future as in the past to drive forever from our fair land the manufacture and sale of all alcoholic beverages."

GERMANY WILL CANCEL HALF HER WAR DEBT

Naturalized American Tells Associated Press of Conditions.

PAN-GERMANISM FAILS

Says Feeling Among People Is That It Will Not Pay.

Berne (Correspondence of the Associated Press)—There has just arrived here from Germany a naturalized American who has lived in Germany throughout the war, worked in German seaport cities, passing for or being considered a German subject, and mingling not only with the common people, but having occasional access to the councils of the high.

In his opinion Germany is suffering acutely now and dissatisfaction and worse reign in certain strata of her army and navy. Recent mutinies and uprisings have been sternly repulsed and the mutineers shot. Thoughtful Germany, he thinks, comprising men of the Ballin type, is desperately anxious for peace and secretly anxious to end the war before America has been utterly alienated.

This man left Germany in October because he had reason to fear he was going to be impressed for military service. The German government had refused to recognize the validity of his American naturalization since he failed to comply with the law existing in 1913 and did not seek the consent of the German government to his step. To get out he had to induce the Spanish embassy to bring pressure to bear on the German government. On reaching Switzerland one of his first steps was to seek the Associated Press correspondent, to whom he first satisfactorily proved his American citizenship, then volunteered regarding Germany as the duty of a patriotic American citizen. Strangely, at the very moment he was telling his story, with details about mutinies in the German navy, the German minister of marine, Admiral von Capelle, was announcing the naval mutinies

Included among the relieved troops is the company which bore the brunt of the recent raid on the American trenches.

WOODYATT GETS GOOD PROMOTION

Word was received from Leonard Woodyatt at Camp Logan, Houston, Tex., who went to war with the old Company G from Dixon as a volunteer, that he has been transferred from Battery C to Headquarters Company and has charge of the Field Drummers. He now has ten drummers under him and expects soon to have about twenty-five in all. He also is soon to receive a sergeant's stripe. His many friends in Dixon will be glad to hear of this recognition of his ability.

VAN BIBBER RECOVERS STOLEN CHICAGO CAR

In Search for Machines Taken From Dixon He Finds It.

SOLD TO COLETA MAN

In his efforts to find one or both of the Ford cars which were stolen from the streets of Dixon a week ago last Sunday night, Chief of Police VanBibber Monday discovered a Ford which had been stolen from in front of the Masonic Temple in Chicago two weeks ago Tuesday, and today Geo. A. Kimbre, 2043 North Cicero Ave., Chicago, and his son came to Dixon to reclaim the machine, which had been sold to a farmer living northeast of Coleta, in Whiteside county, for \$100.

The chief received his tip from a traveling man who had heard a Milwaukee butcher telling of the wonderful bargain the aforesaid farmer had gotten from three young Jews. Thinking the car might be one of those stolen from Dixon the chief went to the farm Monday. He learned that the car was not one of those stolen from here but he took the engine number, 1269738, communicated with Chicago authorities and learned that it had been stolen. Mr. Kimbre was notified and came here this morning, he, his son and the chief going to Coleta at noon.

It is the opinion of the authorities that having disposed of the stolen Chicago car, they returned to Dixon and stole the two cars, driving them to Chicago. Mr. Kimbre says on an average three cars a week are stolen from in front of the Masonic Temple.

BIG TASK FOR THE SELECTION BOARD

GENERAL REPORT ON REGISTERED MEN OF COUNTY ASKED.

Special instructions have been received from the government by the local selection board for a complete summarization of all the registered men in the county, also as to what action has been taken in the cases which have thus far been acted upon in securing the men for the first draft.

The instructions are to have the work completed within a period of ten days and to employ as many assistants as necessary up to ten people in order that the work may be completed in the set time. The work will require a report on a number of different facts contained on the registration cards. The first work will be to sort out those cards of men who are in service and those who are still subject to the service. Then there is a general division consisting of the married and single men, the citizenship, whether they be natives of the United States, whether or not they are naturalized citizens, aliens or whether or not they have declared their intentions by taking out first papers. Another special feature of the work is to classify the registrants as to their occupations. There are over thirty different occupations under which classification must be made.

No reason for the work has been given out but it is believed that the government is desirous of knowing just how many men are still accessible for service and to also obtain data for the second call. The instructions received concerning the work are lengthy and when completed will afford the war officials knowledge of the men still obtainable in every section of the county.

Y. M. C. A. DRIVE MEETING READY RESPONSE HERE

Workers Are Pleased With Results of First Day's Work.

OTHER TOWNS DO WELL

Several Townships Report Their Entire Quota Is Raised.

Reports from national headquarters give the central drive of which Illinois is a part the lead over the eastern district in raising Army Y. M. C. A. funds. Chicago has raised over one-half of its quota and reports from downstate are encouraging. District No. 2 is making splendid progress. Polo reports complete organization and launching of the campaign next Thursday. S. V. Wirick of Rochelle stated that they levied an assessment of from 10 to 25 dollars per capita and are going out to collect it and expect to cover the territory in one day. Ambury reports for two days \$355 secured. Palmyra, with a quota of \$700, at the end of the second day, reports \$750 in pledges. Returns from Dixon at this time are not complete but all indications point to \$4,000 in pledges and cash at the end of the first day's work.

A large and enthusiastic gathering of the ladies' committee met at the city hall yesterday for final instructions and are starting their house canvass today. One of the most gratifying features of the Dixon campaign is the unexpected response of the high school students. The North Side high school pledged \$250, the South Side high school, at the end of two days has secured \$620 in pledges. In all probability the Dixon high school will pledge at least \$1,000.

Yesterday, Mr. Der Kinderin ad-

PUPILS OF DIXON SCHOOLS HAVE CHANCE TO HELP Y. M. C. A.

The teachers of the Dixon grade schools and the superintendent, C. I. Rixler, as the best method which has come under their consideration, have suggested to the pupils of the grades that the money turned into their school savings account this week should be given to the Y. TO RAISE BILLIONS IN SMALL SAVINGS

START PLANS FOR SALE OF THRIFT STAMP SALL OVER THE NATION.

In virtually every bank, postoffice, railroad station, school and retail store in the country these stamps will be placed on sale for the purpose of developing the saving habit and obtaining money in small sums not available by the sale of Liberty Bonds.

"TELEGRAPH" BOY STRIKES IT RICH

H. E. Hand, formerly of Dixon, now of Denver, Colo., sends a clipping from a newspaper which tells of the fortune of Henry M. Hand, his son, who was at one time a carrier boy for The Dixon Evening Telegraph, in striking oil, a 200-barrel well, at Mounds, Okla. The newspaper clipping says:

"Several good wells were completed yesterday in the Mounds, Okla., district. H. M. Hand and associates of Kansas City getting a 200-barrel well in the center of the north line of the northwest quarter of the northwest quarter of section 13-16-12."

His wife writes they "shot the well" Thursday last and the oil went higher than the top of the derrick.

Miss Martha Blackburn, employed at the Brown shoe factory, had a narrow escape from very serious injury and possible death this morning when her hair became caught in the machine which she was operating. Fortunately fellow employees were able to stop the machine before her scalp was torn and she escaped without injury other than a severe nervous shock.

QUESTIONNAIRE WILL HOLD HUSBANDS FOR "GRAVE EMERGENCY"

Men With Dependent Families Placed Far Down the List.

QUESTIONNAIRE IS OUT

(Associated Press Leased Wire.) Washington, Nov. 14.—The five classes into which five million men registered for military duty, and those who are registered hereafter, are divided and the order in which they will be called for service, was officially announced today in the Provisional Marshal General Questionnaire which every registered man must fill out and file. The classification does not exempt married men as a class, but it does place married men with dependent wives and children far down on the list of liability.

In fact, the questionnaire indicates that only men of the first class will be called to the colors except in the gravest emergency.

A copy of the Questionnaire was received yesterday by the Dixon Evening Telegraph, with the request from the war department that no publication be made until today. The Questionnaire is a 16 page pamphlet, closely printed, containing a great many questions, instructions and affidavits to be filled out by the registered men to whom it will be sent. The burden of filling out this questionnaire properly and thus furnishing the information by which the registrant will be classified in some department of one of the five classes, rests upon the registrant. When the questionnaire is all filled out (the registrant will have seven days after receipt of copy to do it) it will be returned to the local exemption board, and that board will use the information furnished by the registrant to place him in the class to which he should belong. If the registrant believes he should have been placed in a class other than the one assigned him by the local board, he may appeal his case to the District Board at Freeport and ask for a new classification.

The Questionnaire is a very thorough and inquisitive little caller, and when he gets through asking the prospective soldier all his questions, he will know pretty much all there is to know about a man, even to what he has been doing the past ten years. Conditions of life, state of finances, ownership of home, nature of trade, relatives, even weight and height are a few of the things the Questionnaire will want to know. The classifications of the five classes have already been published in the Telegraph.

HARMON WOMEN ARE REGISTERED

Those in charge of the work were Mrs. George Ross, chairman; Miss Mary Giblin, secretary; Mrs. R. W. Long, registration officer, and Mrs. William Kranov, Miss Mary Giblin and Mrs. John Graham, registrars.

Manager Of American Red Cross In Strong Denial Of Sale Of Donations

The following statement has been turned in to the Red Cross, such issued by Harvey D. Gibson, general action would be clearly in violation of the fundamental law covering the Red Cross, and we would take vigorous steps to prosecute the offender. "It is also true that any case of this kind should be immediately withdrawn with full publicity. Should it transpire that an actual instance of the above character occurred wherein an individual sold such sales, however, they will be vigorously prosecuted after their having been prosecuted."

KERENSKY NOW IN CONTROL OF RUSSIA; REPORT

Stockholm and Finland Report Kerensky Victory.

REPORT NOT CERTAIN

Dispatches May Be Delayed Versions of Former Message.

(Associated Press Leased Wire) Stockholm, Nov. 14.—Premier Kerensky has entered Petrograd, according to a dispatch from the correspondent of the Swedish News Agency, on the Russian border.

Has Complete Control?

London, Nov. 14.—Finnish Telegraph Bureau says the whole of Russia except a small part of Petrograd is now in the hands of the Provisional (Kerensky) government.

Premier Kerensky is now in Petrograd and has taken virtual control of the entire city, the announcement says.

General Kaledines, the Cossack leader, is said to be dictator of southern Russia.

A wireless dispatch says no official report from army headquarters has been issued today. The arrival of Premier Kerensky in Petrograd, accompanied by troops, is reported by the Russian legation at Stockholm.

Not Certain Yet.

The Finnish Telegrams bureau advises so closely parallel dispatches received on Sunday and Monday that Premier Kerensky has overthrown the Bolsheviks as to suggest that they may be a delayed version of the same reports, which were contradicted by the announcement received yesterday from Petrograd that hte Kerensky forces had been defeated in a battle near Tsarskoe-Selo.

The yield was immediately transferred to the cars and sent to Chicago. Leslie Dess is taking his annual vacation from his duties as assistant at the barber shop and is helping with the corn picking on the Joel Johnson farm south of town. Mr. and Mrs. Alex Jeanblanc, Mr. and Mrs. Albert Jeanblanc and Mr. and Mrs. Frank Hensel motored to the home of their parents, Mr. and Mrs. C. A. Jeanblanc, Sunday, and were guests for dinner. Allen Heinzerth was a business visitor here Tuesday from the vicinity of Ashton. Miss Caroline and William Untz motored to Meringo, Ill., early Saturday morning to visit with Frank Biers and family of that place and also to help him with the closing out sale. Clifford Hoggard was here Sunday from Dixon and paid a short visit at the home of his parents, Mr. and Mrs. Frank Hoggard. Edward

Nichols accompanied him and visited his daughter. Mrs. Marguerite Gehrig returned to the home of her daughter, Mrs. Charles Bernardin, and will make her home with them until she is quite able to again do her housework. George Kessler and George Swape were here from Maytown Tuesday and spent a short time visiting with friends. John Haub was a business visitor here Tuesday from Sublette. It has been reported that a stock buyer from Steward is to be here within a few weeks with several carloads of hogs which he will sell to fatten. If this is the case the porkers will be received with a hearty welcome, as our farmers have had to scour southern Wisconsin for pigs which they might feed the poor corn crop to and thus avoid a total loss. Mr. and Mrs. Harry Christiance and Mr. and Mrs. U. G. Dysart motored to their farm near Franklin Grove Sunday. Albert Gehant is acting as rural carrier on Route 2 for the next two weeks, as the regular carrier is taking his annual vacation. When the war department selected twelve French officers to come to this country and train the boys at Camp Grant, little did we think they would send someone who is in a way acquainted with some of our own folks. When it became known that one of

the officer's names was Phelix Vincent, Mrs. Prosper Gander wrote to him in regard to parentage, and she has received a reply in which he states he comes from the same village and being rather young does not remember her, although his father is a close relative to Mrs. Gander and Joseph E. Vincent, and he will pay them a visit in the near future. Colonel Vincent speaks both French and English and will no doubt have many interesting tales to relate of his actual experiences. John S. Derr has received a choice boar pig which he purchased. He says it cost him a lot of money but it pays to raise the best of everything, no matter whether it is pigs or sheep. Word has been received from the Henry Glaser home of the accident in which Mrs. Catherine Chaon suffers from a fractured arm and three broken ribs. She was at the home of her son, Henry Chaon, at Compton, and during the night time answered the telephone and, in returning to her bedroom, stumbled over some object in the darkness and thus caused the injury. She is resting easily at present and will take some time to recover. Mr. and Mrs. Ed Bittner motored

Girls Give To Fund.
The Willing Workers of Grace Evangelical Sunday school met Mon- day evening with Miss Irene Miller. It was decided by the girls to give \$2 to the Y. M. C. A. and a cake pie will be held in the near future to care for this donation and other class con- tributions. A social hour, during which refreshments were served by the host- ess, was enjoyed after the business session.

U and I Club.

Mrs. J. A. Chronister entertained the members of the U and I club on Tuesday at a delightful club lunch- con, serving two courses of delicious viands. Red, white and blue decora- tions adorned the table and emblems of the season adorned the place cards. Carnations were used here and there about the house. Knitting and cro- cheting occupied the members pre- ceding the serving of luncheon, and Victrola music was enjoyed during the evening. The Misses Bishop will entertain the club at the home of Mrs. Wm. Schultz at the next meet- ing, to be held in two weeks.

Social at St. Luke's.

There will be a social in St. Luke's guild rooms on next Friday evening, under the auspices of St. Ann's Guild. Everyone is cordially invited and will be most welcome.

Works for Red Cross.

Some women of Dixon, who are still young and seem to need every encouragement to do for the Red Cross, should find a lesson in the activities of Mrs. S. E. Trowbridge, who passed her 87th birthday not long ago and has turned out more knitting of the finest quality for the Red Cross—more sweaters, scarfs, wristlets, etc., than many women half her age—and is still continuing in the good work. It does one good to hear of a woman like Mrs. Trowbridge, who keeps abreast of the times, nothing daunted.

P. E. O. Meeting.

Members of Chapter A C. Illinois, P. E. O., held a very pleasant meet- ing Monday afternoon at the home of Mrs. Mark Keller. There was no pa- per for the afternoon which, however was well filled with interesting fea- tures. Miss Ruth Dysart, the president read letters from a number of girls who are being helped to their col-

lege training by the P. E. O. fund, which is loaned to them with the stip- ulation that it be paid back when they are earning their own way after completing college. Current events given were most interesting. The P. E. O. has developed a new method of their presentation, each member dur- ing the year developing some special topic as "The War," "Household Hints," "New Books," etc., and the effort expended by each member in this is more than rewarded by the sus- tained interest and knowledge that results. Miss Mildred Keller, the host- ess' attractive little daughter, played a very sweet number upon the piano and little Miss Eudora Countryman sang most charmingly Carrie Jacobs Bond's "Sunshine." No refreshments were served in accordance with the society's conservation pact.

Thank-offering Meeting

Lowell park, even on such a very gloomy day as Tuesday, has its attrac- tive phases and ladies of the Grace church Missionary society, meeting with Mrs. L. S. Graybill at the lodge, found the cheery cottage and hearty welcome quite equal to dispelling any exterior gloom. Red Cross knitting, as the usual thing these days, was the occupation of the members dur- ing the morning hours preceding the delicious scramble luncheon, and for which the hostess had provided her justly renowned chicken and noodles. The thank-offering meeting of the so- ciety was convened after dinner and \$30 was given by those present as their measure of thankfulness, and this sum will be augmented later by other members who were unable to be present. As each presented her thank-offering a verse of scripture, suited to the occasion, was read. Mrs. L. Sindlinger, president of the society, had charge of the devotionals and Mrs. Homer Senneff handled in a most interesting manner the lesson study on Porto Rico, from the book, "Our New Possessions." Mrs. Hobbs read a booklet, "Our Best Gift," pre- senting in a most delightful manner the real Christmas giving.

Phidian Art Club

The Phidian Art club enjoyed an interesting meeting Tuesday after- noon at the home of Mrs. Abner Bar- low. Miss Sunderland of Milledge- ville, who is a guest of Mrs. Barlow, favored the club with several read- ings. She is a graduate of Connack College of Oratory, Northwestern Uni- versity, is a delightful entertainer, and her selections, including child, Irish and German dialect, were very much enjoyed.

The paper of the afternoon was given by Mrs. States, on "The Valley of Magdalena," the third in the series of South America. Mrs. Staples gave an interesting description of the river and valley in Colombia. The stream is 900 miles long and navigable al- most its entire length, running be- tween the eastern and central ranges of the Andes, with a variety of cli- mate. The moss forests along the banks make the river scenery the most beautiful in the world.

There was a short business session. The lecture by Mrs. Hoffman was an- nounced. This is to be for members, on Saturday, Nov. 24th, at the Y. M. C. A.

Several Victrola numbers were en- joyed and delicious refreshments were served by the hostess.

Dr. Holland will close his pastorate with the Dixon church on the coming Sunday, much to the regret of his parishioners.

Supper and Bazar.

The Candelighters and Women's Auxiliary of the Presbyterian church will hold a chicken pie supper and bazar Wednesday, Nov. 21. The supper, with all sorts of good things supple- menting the chicken pie, will be serv- ed from 5 to 7 in the church base- ment, and from 2 o'clock on the pa- pers of the church will be the scene of the bazar. The societies hope for the usual generous patronage from the public.

WAR AND WOOL.

Sheep raising, which for a number of years has been declining in every great producing nation, should be one of America's great and profitable industries. In the last three years consumption of wool has increased enormously while production has decreased in spite of record prices that have gone up, up and still up!

Upwards of 30,000,000 men under arms have been wearing out six times their normal supply of woolen clothing. A suit in the trenches lasts but about six weeks. All wool articles are disappearing from the market. Cotton production has fallen off in the face of increased demands to supplement wool and to supply munition factories until all clothing prices have doubled and are still going up.

Next year silk may be cheaper than wool, and this situation will not change till sometime after peace comes.

Remember, farmers, wool prices are always HIGHER AFTER THE WAR. Following the war of 1812, farmers received as high as \$1.50 a pound. After the Civil war, the price to the man with sheep went up to \$1 a pound. The average price to the farmer in this country last year was about 29 cents; the past year it has been nearly 60, and next year's price must certainly be higher yet. The United States is short over a half billion pounds of wool, and the deficit in sheep is some 75,000,000 head.

It is the American farmers' opportunity to give his "Uncle Sam" some more independence while he is following his own opportunity to build up his farm and add to his bank roll. Sheep is the weak link in our economic fabric. We have to get two-thirds of the wool we require from outside—Australia, Argentina, New Zealand, Uruguay, England and South Africa.

Australia, the greatest wool producer of all, has one man in ten under arms, and even before the war her ranches were undermanned. Whole regiments of gallant "Anzacs" died in the attempt to take the Dardanelles from the Turks, and those sheep raisers will be sorely missed. England's century-old pastures have been turned up for crops to meet the U-boat threat, and there were 60,000,000 sheep pastured there.

Japan is building up a textile industry, German, Belgian, French and Russian mills will be back in the market when peace comes in a scramble for the short wool supply. Now is the time to get your sheep and stay in the business. Put the sheep into your farming system alongside the hog and the cow.

Your "Uncle Sam" says your lands are ideal for sheep, and the Corn Belt farmers can increase sheep raising 150 per cent without cutting down a single hog or cow. Practically every section of the United States has gone out of the sheep business for the last half century, excepting the Rocky Mountain states. The excess sheep from those states are annually sent to the packers because they have not the room to increase. We must get a start from those western flocks. Now is the time. By the end of the month these western ewes will all be marketed, and those not taken by grain belt, cut-over land, eastern and southern farmers must go to the slaughter house.

UNITED POWER AND ACTION.

The nations sitting at the Allied war conference in Paris will be the belligerents against Germany—all of them, numbering into the teens. Their one purpose will be to determine how to win the war. It is a determination easy to make. There are men, there is money, there will be ships and munitions in plenty. What is essential is a coherent and consecutive scheme for making use of them. Germany has such a scheme in her "high command," which has plenary powers in respect of the disposition of any and all the elements which make war. If men are needed on any front, the high command has the information and acts upon it. If funds are needed to carry on any operation—from those of military importance to those of diplomatic consequence—the high command knows it and sends the money. If the occasion requires a larger supply of shells, or a speeding up of submarine construction, or a more intensive utilization of a transportation system, the high command knows it and shapes its course accordingly. The Allies require something of this sort; and all the more because, unlike the Germans, they are not performing within the narrow limits of a rather restricted circle, but because their battle lines are far-flung and often attenuated. Therefore, out of the Paris conference should emerge the mechanism for making use of the Allied supremacy in all that goes to make warfare possible. The conference must provide for some supreme centralized war council, whose decisions shall be absolute, whose powers shall be undisputed, and whose personnel will command the confidence of the nations whom they represent. We shall then match German wits with allied brain power even as we shall overmatch them in the physical units with which war is carried on.

RELIEF FOR CHINESE.

The American Red Cross, through the Civilian Relief Department, is administering relief to the sufferers from the recent Tien-Tsin flood, which swept over twelve thousand square miles of territory, made one million persons homeless, and wiped out crops and other property to an approximate value of \$100,000,000. Relief funds to the amount of \$125,000 already have been made available for use, through a committee of Americans, of which the United States minister to China, Paul C. Reinsch, is chairman, and of which Roger Green, of the China Medical Commission of the Rockefeller Foundation, is the executive, by special designation of the American Red Cross.

Immediately on receipt of its first cablegram from Minister Reinsch, in Peking, stating the extent of the disaster as far as known and saying that the Chinese government was not able to cope with the situation, the American Red Cross asked Mr. Reinsch to organize a committee and, under prescribed conditions as to its administration, authorized him to draw for \$50,000 through the State Department. Subsequently a cablegram from Mr. Green, who had accepted the appointment tendered by the Red Cross, and had taken charge of the relief work, stated the more complete details of the disaster. On his recommendation authority was given to draw for \$75,000 more to be used to meet half the labor cost of employing ten thousand refugees, representing fifty thousand people, on road building for four months. The other half of the labor cost, together with all expenses for machinery and engineering, will be borne by the Chinese government.

The main job of the campaigners on the Y. M. C. A. war fund is to make the people understand the good their money will do for the boys in the army. When they reach a full understanding of that they will give freely and cheerfully.

AMUSEMENTS
PICTURE OF TRAINING CAMP LIFE SHOULD DRAW A BIG CROWD.
Manager Rorer of the Family theater in Dixon announces that he has secured the motion picture, "Who Leads the National Army?" for his theatre on Friday evening of this week. It is a one reel picture, gotten out by the Military Training Camps association. It is authorized by the war department and is designed to show the people of the nation the careful training given the officers for the national army and to give the people confidence in these men who are to lead their boys into battle. The story opens with a scene at the club and the decision of one of the members to apply for admission to the Officers' Training Camps—the mental and physical examination, arrival at camp with hundreds of other applicants, panorama of camp, setting up exercise, manual of arms, signal practice, bayonet charge, maneuvers, trench construction, grenade throwing, attacking trenches, President Wilson reviewing candidates, re-deeming the war department pledge of a square deal, Secretary Baker signing commission as recommended by regular army officer, well trained and ready to lead the national army.

LEE COUNTY BOYS ON RIFLE RANGE
(Continued from Page 1)
Practice, they received today. The constant spat, spat of the steel-jacketed bullets along the target butts sounded like real war. Frequently a target went down and many good scores, for beginners, were made. For many of the men of the 342nd this was the first time they ever fired a rifle. It was a new experience and they all entered into the work with zest.
Looked Like Real War.
The rifle butts are set against a steep hill on the north side of the Kishwaukee river. Behind the targets is a deep trench to protect those who "set" the targets in position after they have been knocked down. Two men "set" each target. When the bulls-eye is hit a small white ball appears from behind the rifle target. A red flag is shot up when there is a miss. If the target is hit at all, a black ball appears. Behind the rows of men on the "firing line" records of the shots are kept.
The men fire in platoons, and a record of the work of each individual is carefully kept. "There will be a lot of sharp shooters in the 342nd," an officer of the regiment said this morning. "There are men here who have hit the bulls-eye several times who have never had any experience in their lives in firing a rifle."
Behind the "firing line" is Kishwaukee river. A rustic bridge has been thrown across the stream over which the men walked to the 200 yard "firing line." On the north side of the river, near the water's edge, a half dozen tables were placed. On these rifles were rested while the men cleaned the pieces in preparation to going back to the "firing line." Along the river bank, while a portion of the regiment were firing, the remainder was being taught the art of weaving facies from brush. Rough poles were set into the ground and between these posts the limbs were intertwined in such a manner as to form a defensive barricade.

dressed a meeting at Forrester, following which the committee assumed responsibility for its quota of \$1,200. C. C. Chalmers helped the organization of the work at Harmon and H. M. Babin helped with the organization of the work at Compton. Mr. Babin speaks at Lee tonight, and Mr. Chalmers will speak at Sublette and help that place to organize.

Nelson township is the only point in Lee not enlisted in the campaign and it will in all likelihood be at work today. Many men on teams report gratifying response. Some were so fortunate as to meet not a single refusal on the whole canvass. Fred Lawton stated that in his solicitation he has not met a single person who refused to contribute. The response of the people to this appeal is tremendously gratifying. It will be of great significance to our boys in training and over seas when they learn of the generous response to this appeal which ministers directly to their comfort and morale.

Queer Customs of British Navy.

There are very many ancient customs in the British navy, some of which are "wrapt in mystery." For instance, when officers go aboard or leave their ship, it is invariably the case that the junior steps into the boat before his senior, although at the end of the journey the order is reversed. This curious custom is as old as the navy itself.

OBITUARY

MRS. AUGUSTUS ROSS

Funeral services were held Monday afternoon at the Morris & Preston chapel for the late Mrs. Augustus Ross, whose remains were brought here by her son, W. B. Ross of Delphos, Kas., at whose home she died.

Frances A. Thompson was born at Durban, N. H., July 1, 1834 and died at Delphos, Kas., Nov. 10, 1917, aged 83 years, 4 months and 10 days. She was united in marriage with Augustus Ross May 18, 1856. To this union were born five sons and two daughters; one of the daughters died in infancy and the other in young womanhood. The husband died January 15, 1904. The sons are living. Mrs. Ross was a member of the M. E. church and attended divine services up to a few months before her death. The early years of her life were spent within sound of the Atlantic; she endured the privations of pioneer life on the prairies of Illinois, living near 50 years in Dixon and vicinity and the last years of her life were spent on the Pacific coast, with the exception of the last year, which was spent at Delphos at the home of her son, W. B. Ross.

GERMANY WILL CUT WAR DEBT ONE HALF

(Continued from Page 1)

to the reichstag.

Looks for Collapse.

He says: "The economic situation in Germany is far worse than anyone on the outside realizes, is so critical that I look for a break, a collapse, next spring or late in the winter. Nor are the good crops that one hears of so often going to change the situation materially."

"Throughout the German people is what amounts to hatred of America, concentrate don President Wilson because it is easier to hate a man than a nation, especially one that is the home of pretty nearly everyone's relative."

"But the big men of Germany, who have to look ahead and guide the empire after the war, do not hate America. They feel too keenly that they need America and they would like to stem the tide of hate before it becomes mutual and the United States are alienated, perhaps for all time."

Looking Forward.

"They know that after the war there is only one country in the entire world where they can get money they shall need, America, and they are worrying. They and all Germany want increasingly a peace that shall specify, among other things, a right to purchase raw as well as finished material anywhere in the world on the same terms as any other nation."

"Every indication points to probable confiscation of property and repudiation of perhaps half the war loan totals after the war. Even the percentage of property to be confiscated is being talked of and it seems probable the government will take 20 per cent of everything."

"It also seems probable from what I hear that an even half of all outstanding war loans will be nullified. The seventh will suffer as the first and the first as the seventh. Fifty per cent will be repaid and the other fifty will be cancelled or merely continue to pay interest, a sort of perpetual investment, the capital for which cannot be realized."

Anti-Emigration.

"As surely as anything can be predicted there will be in the Central Powers a series of laws forbidding emigration. And in anticipation count less Germans are today talking ways and means of getting away after the war. South and North America and New Zealand are the havens to which they speak of going. The first German ship that lands in America after hostilities will leave 50 per cent of its crew behind."

"It is becoming clear to Germans every day that talk has gone around about a 'Central Europe' after the model of Prof. Naumann and others will be out of the question."

TO END STRIKE IN U.S.

A. F. of L. Acts to End Tieup of
War Contracts.

Employees of Shipyards and Munitions Plants Ordered to Begin Operations at Once.

Buffalo, N. Y., Nov. 14.—John Dolan, president of Building Trades' department, who notified President Wilson the strikers had been ordered back to work, received this telegram:

"Your telegram cheered me very much and hope you will convey my sincere thanks and appreciation to those associated with you in the patriotic action of which you give me information. You may be sure there will be all possible co-operation at this end."

"WOODROW WILSON."

Buffalo, N. Y., Nov. 14.—All strikes affecting government work in shipping, munitions and other war enterprises have been called off by the building trades section of the American Federation of Labor, it was announced by Secretary Morrison. A conference of representatives of build-

ing trades heads and government representatives will be held in Washington within a few days, to go over the situation. Pending the result of this meeting orders have been sent to the presidents of locals to put their men back to work.

The Building Trades council of the American Federation of Labor sent a message to President Wilson, asking for a two-hours' conference to discuss the situation at Quincy, Mass., where work is being held up on a destroyer plant by a strike involving about 1,800 men. More than 8,000 other workers are said to be indirectly affected by the trouble.

The Quincy strike involves the question of the open shop and a settlement there, it was said, would pave the way to speedy adjustments elsewhere.

TUMULTY DENIES SPY YARN

Secretary to President Reported Taken to Prison.

Washington, Nov. 14.—Newspaper offices, the government departments and even the White House itself have been bombarded recently by queries from many sections of the country concerning preposterous stories about Secretary Tumulty. Usually the questioner wants to know whether it is true that the president's secretary has been sent to Fort Leavenworth as a spy.

Now Mr. Tumulty is hearing from his friends on the subject, and he authorized this statement at the White House:

"For several days friends have written, telegraphed and telephoned me from all parts of the country stating that rumors are being assiduously spread alleging that I have been imprisoned at Fort Leavenworth."

"All sorts of fanciful tales are being passed from month to month by innocent persons who are the victims of a systematic and insidious propaganda to weaken confidence in officials of the federal government."

"Officials of the department of justice are investigating the origin of this conspiracy to determine who have been guilty of actually starting this falsehood."

No one has been able to account for the circulation of these reports. Most of them have come out of the middle West, and apparently they have been spread from one end of the country to the other."

GEN. CADORNA BARS POST

U. S. AIRMEN RAID GERMANY

American Army Officers Help
Drop Bombs on Important
Military Positions.

FRENCH MACHINES ARE USED

No Casualties Among Yankee Aviators
Have Been Reported—More of
Pershing's Troops Enter
the Trenches.

With the American Army in France, Nov. 14.—American army aviators have participated in bombing raids over Germany and have been doing observation duty at various points of the battle line.

The aviators are officers of the regular army, one of whom had been flying before the United States entered the war. Others of them are men who have been on duty at training camps.

On the bombing raids the Americans have been carried in French planes as bombers and observers and have been gaining a wealth of experience, which in the future will assist them, as well as the new members of the air service who are arriving or are to arrive.

Hit Important Points.

Some of the Americans were in several recent raids in which bombs were dropped on German positions of military importance.

In observation work the Americans have been acting both as observers and pilots, flying in French machines. This work has been done at many points, but none of the machines carrying American aviators has flown over the sector where the American troops are entrenched.

Numbers of French machines have been turned over to the Americans for their own use.

No casualties among the American airmen have been reported, although enemy airplanes have fired heavily upon them.

The allied officers are enthusiastic over the work of the American flyers and are of the unanimous opinion that they are combining the daring of the British flyers and the technique of the French airmen.

All the operations in which the Americans took part have in a measure been in the nature of instruction.

Third Quota in Trenches.

The second American detachments to enter the trenches have returned to their billets. The relief was accomplished successfully without the knowledge of the Germans. The third series of battalions now is occupying the first line, having marched in on a brilliant starlit night.

WEST BROOKLYN

(Continued from page 2)

over from Tampico Sunday and spent the day visiting at the home of Mr. and Mrs. Elmo Litt.

Two-thirds of the women of Precinct One, West Brooklyn, showed their patriotism by registering on Friday and Saturday at the Red Cross headquarters in town. In exact figures, ninety-four women registered and about one-half that number who remained who did not register.

Mrs. E. C. White was managing the local registration and was ably assisted by Mrs. Amelia Henry, Mrs. A. L. Derr, Mrs. F. J. Herman, Miss Ruby Johnson, Miss Leahy Gehant, Miss Madelyn Derr and Miss Frances Meyer, to whom she is very thankful for their efforts in assisting her. The next question Uncle Sam will be debating in his mind is "Why did not the other one-third in Brooklyn register? Are they unpatriotic or did they not know of it?"

WIT AND NEAR WIT. "Does Rogers smoke much?" "No; he gave me a cigar yesterday and it wasn't much."—Boston Evening Transcript.

The Maid—I hear that they now have a woman's dictionary. I wonder if it differs much from others. The Brute—It probably has more words in it.

"He believes everything he hears." "Good. Perhaps I can get him to believe that, if he'll lend me \$10, I'll return it next Saturday."—Detroit Free Press.

"I don't know how the Flubdubs can afford an auto." "Well, my dear, I wouldn't let that problem take up too much of my time. Probably they don't know themselves."

63 I. W. W.'S ARE ARRESTED

U. S. Agents Capture Ringleaders in Omaha Raid.

Omaha, Neb., Nov. 14.—Sixty-three Industrial Workers of the World were arrested here in a raid conducted by federal agents. The men were attending a convention of the I. W. W. from Nebraska, Minnesota, the Dakotas and several other states.

All are being held in jail to await the outcome of an investigation which will require an individual examination of each man, according to United States Marshal Flynn. When booked at the police station the I. W. W. gave addresses from every principal Western city and many Eastern cities.

The raid was made by United States Marshal Tom Flynn and a corps of deputies, assisted by city police and detectives. No resistance was made.

"The literature is the same stuff that was recently barred from the mails," said Marshal Flynn. "We think the delegates intended taking it back home with them. We believe we have the king pins of the order." The I. W. W. take their arrest philosophically.

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

Man's Fear of Death.
That which we term the fear of death in normal men and animals is an expression of their desire to live. Were it not that this desire was deeply implanted in all living things they would soon disappear. This is shown by the efforts made to end their lives by those who have lost the desire to live. And losing it they lose fear concerning the future. As a rule they are victims of perversion of sense, a feeling which may be only transient or continuing.—Exchange.

ANARCHY REIGNS AT PETROGRAD

(Continued from page 1)

Copenhagen, Nov. 14.—A dispatch to the Berlingske Tidende says that Eric Hjorth, a Swedish director who left Petrograd Saturday and arrived at Haparanda, declares that the situation in the Russian capital is terrible.

Virtually all administration had ceased, the authorities having given up all attempts to continue work. Bolshevik soldiers and sailors were sweeping through the city like robber bands, committing all sorts of excesses and crimes.

Food was exceedingly scarce, and prices were so high that it was impossible to pay them.

Nearly the entire population was awaiting the arrival of Kerensky troops to be relieved of the terrorism.

Claims Defeat of Kerensky.
London, Nov. 14.—The complete defeat of Premier Kerensky and General Korniloff is alleged in a Russian communication received here by wireless. The announcement follows:

"Yesterday, after bitter fighting near Tsarskoe Selo, the revolutionary army completely defeated the counter-revolutionary forces of Kerensky and Korniloff. In the name of the revolutionary government I order opposition to all enemies of the revolutionary democracy and the taking of all measures necessary to effect the capture of Kerensky. I also forbid similar adventures which are endangering the success of the revolution and the triumph of the revolutionary army."

(Signed) "MAURAVIEFF,
Commander in Chief of the Forces Acting Against Kerensky."

Claims Kerensky Fails.
The communication goes on to say history will record the night of November 12.

"The attempt of Kerensky to move counter-revolutionary forces against the capital of the revolution has received a decisive reply," it adds.

"Kerensky is retiring and we are taking the offensive. The soldiers, sailors and workmen in Petrograd know how to impose and will impose with arms in their hands their will and the power of the democracy."

"The bourgeoisie has endeavored to separate the army from the revolution. Kerensky has attempted to break it by the violence of Cossackdom. Both efforts have failed."

Wants Peace and Bread.
"The opposition to Kerensky is the opposition to the landlords, the bourgeoisie and Korniloff. The opposition to Kerensky is also the affirmation of the people's right to peace, free life, the land, bread and power."

"The Pulkoff detachment by its gallant blow is affirming the cause of the revolution of the workmen and peasants. There is no return to the past."

"TROTSKY."

"In the name of the people's commissaries."

Korniloff Rules Capital?
Stockholm, Nov. 14.—General Korniloff has entered Petrograd, where the entire garrison, except the sailors, went over to his side, according to a Petrograd dispatch to the Social Demokraten under Monday's date.

There was a temporary fighting on the Nevsky Prospect, says the dispatch, and the Bolsheviks failed to hold even the workmen's quarter of the city.

The foreign ambassadors, the message reports, are now in communication with General Korniloff.

ALL GERMAN RAIDS FAIL

French Repulse Teutons During Attacks Near Reims.

Paris, Nov. 14.—"In the region north, west and east of Reims the Germans, after lively bombardments, carried out several raids," says the official announcement. "Their efforts brought them no success."

London, Nov. 14.—The British official communication says: "British troops carried out a successful raid against a hostile post southeast of Neuport. A number of Germans were killed and several were taken prisoner. The entire raiding party returned."

"The enemy attacked one of our posts northeast of Arruenteires, but was repulsed by rifle and machine gun fire. The hostile artillery developed great activity northeast of Ypres."

FOES REPULSED WITH BIG LOSS

(Continued from Page 1)

Washington, Nov. 14.—France's confidence that the Teutonic drive into Italy has been stopped is expressed in a war office statement cabled to the French embassy here.

"The Germans have exaggerated the importance of the Italian defeat," says the statement. "In reality the Italian armies are far from being defeated."

"The second army only has seriously suffered. The line of the Piave is actually solidly held. The Italian general staff is awaiting the enemy forces."

"These operations, having shortened the front, allow of better means of resistance."

"The English and French armies are in reserve behind."

"The morale of the army has been straightened and is becoming excellent."

Rome, Nov. 14.—Attacks by the Teutonic allies along the Asiago plateau front have been repulsed by the Italians, according to the official communication.

Repulse Heavy Attack.
The text of the communication follows:

"During the night of Sunday the enemy, with renewed and greater efforts, attempted to attack the Mount Gallo-Longara-Moletta di Gallo front on the Asiago plateau. During a counter-attack, after a desperate struggle, the enemy was repulsed and suffered very serious losses."

Well supported by artillery of all calibers, the Ninth infantry regiment of the Regina brigade and the Verona Alpine battalion distinguished themselves by their bravery."

"During yesterday afternoon intense enemy movements, which were the prelude to a new attack, were thwarted effectually and stopped by our artillery."

Main Armies in Contact.
"Near Canove, west of Asiago, our sixteenth storming detachment attacked an enemy detachment, and through its capture released some of our men who had been made prisoner during previous actions."

"From the Brenta to the lower Piave the enemy armies, which in the past days had only been hindered in their advance by rear-guard actions and stopped by interruptions on the highways, have occupied territory evacuated by us and now are in contact with our line."

"With the aid of large boats enemy groups succeeded at dawn at Monte San Dona di Piave (about twenty-three miles northeast of Venice) in crossing to the right (west) bank of the river at Zenson and in establishing a bridgehead. Promptly faced by our troops, they were counter-attacked and repulsed toward the river bank."

Foe Claims Mont Longara.
Berlin, Nov. 14.—Fonza and Mont Longara have been captured by the Austro-German troops invading northern Italy, says the official statement issued by the German war office.

JAPAN MAY CALL OUT ARMY

Tokyo Paper Fears German Influence in Asia.

Tokyo, Nov. 14.—"The Japanese people must be ready for any emergency; the government must prepare for any contingency," the Tokyo Nichi Nichi said in voicing the general view of the Japanese press on the latest developments in Russia.

The newspapers maintain that the allied situation is dark and agree that Russia is no longer of the slightest military value, although they do not fear a separate peace.

The Hochi declares that Japanese mobilization is likely to be demanded and advises the government to send a special mission to Russia. Should German influence extend eastward to the Ural mountains, the paper says, the future of Asia will be threatened.

"The necessity for mobilization in Japan is increasing," the Hochi declares, "and the nation should prepare for such an issue."
